

My Assessment Appointment

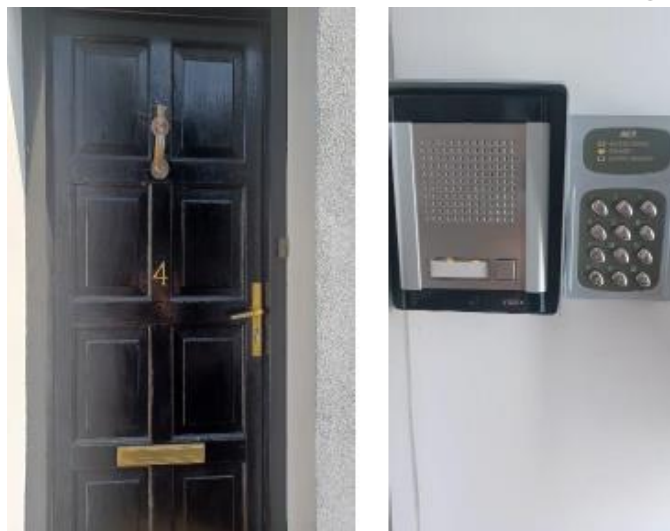

I have been invited to come to Key Assets Consulting (KAC) so the team there can get to know me and learn about me what I am good at, and what I need help with.

My **parent/guardian** will come to the appointment with me in this building.

When I come to us for an appointment I can use the knocker, doorbell or press the big button on the intercom and a friendly staff member will let me in 😊

When I go there, I will meet a member of the staff team who will welcome me 😊

My assessor would like me to have a chat and maybe do some puzzles or activities. There will be some moving around and games at the table also. My **parent/guardian** can stay and watch if I want.

The activities will be fun, but I may get tired doing them or find some of them hard. I can ask for a **break to relax** or a **drink** whenever I need to.

The team are very happy to meet me and have lots of fun.

excited
